Seculyze - Standard Contract Addendum

Updated on 10 July 2025

1 Preamble

1.1 **Microsoft Standard Contract.** Microsoft has created a standard agreement (the "**Standard Contract**") that publishers can use to offer their software on the Azure Marketplace in order to facilitate a transaction between publishers and customers on Azure Marketplace.

1.2 **Addendum to the Standard Contract.** This addendum to the Standard Contract ("**Standard Contract Addendum**" or "**SCA**") has been established and agreed upon by Customer and Seculyze ("**Publisher**"), acting as an addendum to the Standard Contract previously signed within the Azure Marketplace and AppSource Marketplace by both parties (collectively the "**Agreement**").

1.3 **Integral part of Standard Contract.** The conditions outlined within this SCA are to be viewed as an integral part of the Standard Contract. Unless explicitly defined otherwise within this document, all terminology will carry the same definitions as found in the Standard Contract.

1.4 **Precedency.** In case any disagreement or contradiction arises between this SCA and the Standard Contract, this SCA shall take precedence and act as the deciding authority. Notwithstanding, any specific terms set out in the Order shall take precedence over the terms in this SCA.

1.5 Recognizing the mutual interest of both the Customer and Publisher in purchasing the Offering under the Standard Contract, the amendments below have been agreed upon.

2 Definitions

2.1 **Terms and acronyms used.** Defined terms and expressions with capital letters shall have the meaning defined in the Standard Contract or as defined below:

"Customer's Microsoft Active Directory"	Means the Azure Active Directory (Azure AD), which is a cloud-based identity and access management service that is licensed by the Customer
"Documentation"	means also, in addition to the meaning set out in the Standard Contract, Appendix A. Product Description.
Customer Employee	Means an employee of the Customer. Includes both parttime and permanent employment.
Customer Consultant	Means an employee of the Customer. Includes both parttime and permanent employment.
"Intellectual Property Rights"	means copyrights, patents, utility models, trademarks, trade names, topography rights, design rights and rights in databases or applications for such in all cases whether or not registerable in any country and all rights and forms of protection of a similar nature or having equivalent or similar effect anywhere in the world.
"Licence"	means the licence granted by Licensor to Customer in clause 3 and pursuant to the Standard Contract.
"Restricted Personal Data"	means any Personal Data, save for the following information: IP address' or other technical network information, e-mail and username as well as any technical information normally generated by Microsoft software and services in conjunction with the aforementioned information.
Section	Means a section within the Standard Contract that may be altered, updated or clarified pursuant to this SCA.
"Software"	means the software provided by Publisher to Customer on Azure Marketplace.
Seculyze/Publisher	Means Seculyze Lathyrusvej 11, 3500 Vaerloese Denmark Company/VAT number: DK42004332 Our website address is: http://seculyze.com.

3 Licence

3.1 **Supplements to Section 1 ('License to Offerings'):**

3.2 **Licence grant.** The Licence granted to Customer is a subscription licence to access and use the Offering on a per-user basis. The use may take place by any employee of Customer, by their auditors

and other advisors, consultants, and contractors, provided the use occurs on behalf of or to the benefit solely of Customer in accordance with the user metric and such user is registered in the Customer's Microsoft Active Directory.

3.3 **Licence type.** The type of licence granted to user is specified in the Order. The description of the features and functionality is set out in Appendix A. Product Description as well as the rest of the Documentation.

3.4 **Payable User Metric.** For the purpose of calculating payable users the following shall apply: A Payable User shall be deemed a Customer Employee with an enabled user account in Customer's Microsoft Active Directory, regardless of whether the Employee is actively using the Offerings. The number of Payable Users shall be calculated as the total count of Employees with a unique id in the Customer's Microsoft Active Directory as of the date of each invoice. The Publisher reserves the right to verify the number of users registered in Customer's Microsoft Active Directory at any time. Payable Users are payable monthly in advance.

3.5 **Usage Restrictions**: The Offerings shall not be used by more than the licenced number of users. If the number of users exceeds the Licenced quantity, Customer shall either reduce its usage or promptly order and pay for additional licences.

3.6 **Use with third-party software.** The Customer is permitted to use the Offering in coordination with other products, technologies, and services that have been separately acquired and installed by the Customer from third-party providers. Such interactions might involve the exchange of Customer Data with the Offering. The Customer acknowledges that the use of any third-party product or integration will be entirely at their own risk, and any issues or discrepancies that arise from their use will not be the responsibility of the Publisher.

3.7 **Licence to Customer Data.** The Customer authorises the Publisher and its affiliates a revocable, non-exclusive, non-sublicensable, worldwide royalty-free right and Licence to utilise the Customer Data to the extent necessary to fulfil its obligations under the Standard Contract. The Publisher and its affiliates are also granted a non-exclusive, perpetual, worldwide, royalty-free right and Licence to compile and use Customer Data for the purpose of research, development, modification, improvement, or support of the Publisher's services, under the condition that such data is used in an anonymous or aggregated form.

3.8 **Copying of Documentation.** Customer may in its discretion copy Documentation in any number and distribute such copies for Customer's internal use of the Software.

3.9 **Remote Access.** Subject to clause 3.5 Publisher agrees that no restrictions or additional fees shall apply to or be implied by Customer's use of the Software in technologies which allows for the users to access the Software outside Customer's locations.

3.10 **Outsourcing.** Customer may engage a third-party service provider to use, host, operate and/or maintain the Offerings on its behalf without incurring any additional charges. Customer shall notify its third-party service providers of the terms and conditions applicable to the Offerings. Customer shall be liable for any breach of the Agreement by its third-party service providers.

4 Privacy and Customer Data

4.1 **Section 2 ('Privacy') is updated to clarify:**

4.2 **Data processor.** Customer acknowledges that by engaging Publisher under the Agreement, Customer act as data controller and Publisher as data processor when provision of the Offerings includes processing of Personal Data.

4.3 **Data processing agreement.** The handling of Personal Data by Publisher under the Agreement is subject to Publisher's Data Processing Agreement ("DPA").

4.4 **Parties' responsibilities.** Customer acknowledges that it is responsible for ensuring compliance with all Data Protection Laws that are applicable to it while using the Offering. Publisher acknowledges its responsibility as data processor to comply with Data Protection Laws applicable to it while providing the Offerings. These responsibilities and further described in the DPA.

4.5 **Restricted Personal Data.** The Offering is not designed for the collection of any Restricted Personal Data (excluding IP addresses and other unique, non-personal identifiers necessary for performance of the Software). It is the Customer's responsibility to prevent the transfer of any such Restricted Personal Data to Publisher.

4.6 **Deletion of Restricted personal data.** If either Party becomes aware that Restricted Personal Data has been or is being collected or displayed via the Offering, both Parties agree to cooperate in good faith to delete any such Restricted Personal Data from the Offering.

4.7 **Data Retention.** The Customer Data collected through the Offering will be accessible for Customer's use in accordance with the retention period applicable for Customer's licence type. Once this retention period expires, Customer Data will become inaccessible to Customer and will be deleted.

4.8 **Data location**. All Customer Data is processed and stored at a Microsoft Azure Cloud Datacentre located within the EU.

4.9 **Section 2.5 is replaced in entirety with the following:**

4.10 **Support Data**: Publisher may collect and use Support Data to support, provide, maintain, and improve the Offering, subject to compliance with applicable law, including Data Protection Laws.

5 Support and SLA

5.1 **Section 4 ('SLAs') is updated to clarify:**

5.2 **SLA:** With reference to section 4 this clause 5 shall be deemed to be the SLA as communicated to the Customer.

5.3 **General support.** The general support related to the Offerings is the Documentation provided by Publisher. In the event Customer is not able to resolve issues based on the Documentation, Publisher offers an online support and chat.

5.4 **Support Availability.** Support services for the Offerings are available during normal business hours (i.e. Mon-Fri, 9 am to 5 pm CET), except for planned downtime for system maintenance.

5.5 **Support Requests.** Support requests can be made through the designated support portal provided by Publisher or through the Microsoft Azure Marketplace, if available. Customer should provide all necessary details regarding the issue, including error messages, screenshots, and steps to reproduce the issue, if applicable.

5.6 **Issue Resolution**: Publisher will use reasonable efforts to resolve any support request in a timely manner. However, Publisher cannot guarantee that every issue will be resolved. Some issues may require a software update or may be due to factors beyond Publisher's control.

5.7 **Exclusions**: The support services do not cover issues caused by Customer's misuse of the Offering, modifications to the Offering not made by Publisher, or issues related to the Microsoft Azure platform itself.

5.8 **Updates and Upgrades**: From time to time, Publisher may release updates or upgrades to the Offering. These updates and upgrades will be made available to Customer at no additional cost.

6 Audit

6.1 **Section 5 ('Verifying Compliance') is replaced in entirety with the following:**

6.2 **Compliance Monitoring.** Customer will be responsible for monitoring its own compliance with the terms of the Agreement, including but not limited to the proper use of the Offerings and the adherence to usage restrictions.

6.3 **Customer's Audit Right.** Customer has the right to appoint a reputable independent third-party auditor to audit Publisher's compliance with the terms of the Agreement, including its performance of the Offerings. Audits will be conducted during regular business hours at Publisher's offices, and shall not unreasonably interfere with Publisher's business activities.

6.4 **Exclusion of Certain Information.** The audit will be limited to information necessary to verify compliance with the Agreement and expressly exclude any information relating to other customers of Publisher and Publisher's proprietary information.

6.5 **Limitation on Audit Right.** Customer's right to audit is limited to twice per year.

6.6 **Audit Notice**: Customer will provide Publisher with at least thirty (30) days' notice of its intent to conduct an audit.

6.7 **Remediation.** If an audit reveals that Publisher is not in compliance with the Agreement, Publisher will have a reasonable period of time, not exceeding thirty (30) days, to cure any deficiencies. If Publisher fails to cure material deficiencies, Customer may terminate the Agreement without notice.

6.8 **Audit cost.** Without limiting Customer's right to seek damages Customer will bear all costs associated with the audit unless the audit concludes that Publisher is in breach of the Agreement.

6.9 **Confidentiality and data security.** Customer and its auditors will keep any non-public information obtained during an audit confidential, except as required by law or as necessary to enforce this Agreement. Customer and its auditor will comply with all applicable data security laws and regulations during the audit, including those regarding the handling and safeguarding of Personal Data

7 Representation and warranties

7.1 **Section 6 ('Representation and Warranties') is updated to clarify:**

7.2 **CUSTOMERS RESPONSBILITY.** THE PURPOSE OF THE OFFERING IS TO ASSIST CUSTOMER BY ALLOWING CUSTOMER TO PROCESS AND INTERPRET DATA AND INFORMATION DERIVED FROM MICROSOFT SENTINEL AND OTHER RELEVANT DATA SOURCES. WHILE THE OFFERING IS DESIGNED TO FACILITATE THE ANALYSIS AND UNDERSTANDING OF SUCH DATA, PUBLISHER MAKES NO REPRESENTATIONS OR WARRANTIES THAT THE OUTPUT GENERATED BY THE OFFERING WILL BE ERROR-FREE OR ALWAYS ACCURATE. THE DATA USED TO PROVIDE THE OUTPUT IN THE OFFERING IS TRANSPARENT AND ACCESSIBLE TO CUSTOMER, AND CUSTOMER IS EXPECTED TO REVIEW AND VERIFY THE ACCURACY AND APPROPRIATENESS OF THE OUTPUT GENERATED BY THE OFFERING. PUBLISHER DISCLAIMS ANY AND ALL LIABILITY FOR DECISIONS MADE OR ACTIONS TAKEN BASED ON RELIANCE ON SUCH OUTPUT. THE RESPONSIBILITY TO CONFIRM THE ACCURACY OF THE OUTPUT AND ITS APPLICABILITY TO CUSTOMER'S SPECIFIC NEEDS AND SECURITY RESTS SOLELY WITH CUSTOMER.

7.3 **LIMITED WARRANTY.** PUBLISHER MAKES NO WARRANTY THAT THE OFFERING WILL MEET CUSTOMER'S EXPECTATIONS, BE ERROR-FREE, OR AVAILABILITY BE UNINTERRUPTED. THE PUBLISHER IS NOT LIABLE FOR ANY DAMAGES RESULTING FROM ERRORS OR OMISSIONS IN ANY INFORMATION, INSTRUCTIONS, OR SCRIPTS THAT CUSTOMER PROVIDES TO PUBLISHER RELATED TO THE OFFERINGS, OR ANY ACTIONS TAKEN BY PUBLISHER AS DIRECTED BY CUSTOMER.

8 Defense of Third-Party Claims

8.1 **"Claim Against Customer" in section 7.2 ('By Publisher') is replaced in entirety with the following:**

8.2 "any and all third party claims, actions, suits, proceedings, and demands alleging that the use of the Offering as permitted under the Contract infringes or misappropriates a third party's intellectual property rights" (a "Claim Against Customer")

9 Limitation of Liability

9.1 **Section 8 clause "a. Subscription" is replaced in entirety with the following:**

9.2 Publisher's maximum liability to Customer for any incident giving rise to a claim will not exceed the amount Customer paid for the Offering during the 12 months before the incident.

10 Termination

10.1 **Section 10 ('Term and Termination') is updated to clarify:**

10.2 **Customer's termination without cause.** Notwithstanding section 10.2, Customer may terminate the Agreement without cause by providing at least 30 days' notice to the end of a month. All other parts of section X letter b remain unchanged.

10.3 **Publisher's termination without cause.** Notwithstanding section 10.2, Publisher may terminate the Agreement without cause depending on the licence type set out in the Order:

(a) **Basic Licence notice.** No less than 60 days' notice to the end of a month.

(b) **Professional Licence notice.** No less than 90 days' notice to the end of a month.

(c) **Enterprise Licence notice.** No less than 180 days' notice to the end of a month.

All other parts of section 10.2 remain unchanged.

10.4 **Sanctions Compliance and Termination Clause.** If a party or any of its owners, controlling persons, or officers is on any sanction list issued by the United Nations, the European Union, the United Kingdom, Norway, or the United States of America, the other party may terminate the agreement immediately without liability. In such event, the terminating party shall not be obligated to pay any outstanding fees.

10.5 **Section 10.5 ('Refund') is hereby removed in entirety.**

11 Miscellaneous

11.1 **Section 11 ('Miscellaneous') is updated to clarify:**

11.2 **Governing law and venue.** The Agreement, any dispute arising out of or in connection with the Agreement, shall be subject to Danish law. The Parties irrevocably agree that Danish Maritime and Commercial High Court shall have exclusive jurisdiction in relation to any claim, dispute or difference concerning the Agreement and any matter arising therefrom. The international sale of goods act does not apply.

11.3 **Section 11.1 is replaced in entirety with the following:**

11.4 **Entire Agreement**. This Agreement supersedes all prior and contemporaneous communications, whether written or oral, regarding the subject matter covered in this Agreement.

If there is a conflict between any parts of this Agreement, the following order of precedence will apply:

1. Order;
2. This SCA;
3. The Standard Contract;
4. and Documentation.

11.5 **Section 11.15, is hereby added to the Agreement, as follows:**

11.6 **Publicity.** Subject to confidentiality terms in this agreement and unless otherwise agreed in writing, both Parties may reasonably use, without the other Party's prior written consent, the name and logo of the other party and the fact that the Publisher has been or is providing services to Customer. In no event may such information be used in any way to damage, harm, or otherwise bring the other Party publicly in discredit. In such event, the Party claiming to be damaged, harmed, or discredited shall notify the other Party, who shall, without undue delay, stop such use of the Party's name and logo.

Appendix A. Product Description

1 General

1.1 This appendix sets out a description of the Offering. The Offering depending on the licence set out in the Order. Publisher offers 4 different types of licences:

(a) **Basic Licence**

(b) **Pro Tune Licence**

(c) **Pro Cost Licence**

(d) **Enterprise Licence**

1.2 All licences come with online support, retention of data, infrastructure, 2-click installation and materials for onboarding of the Offering.

1.3 All licenses Product Description also appears from: https://seculyze.com/products/pricing/

1.4 The Customer acknowledges that the Publisher may update and alter the Product Description without notice, always provided that the quality and features are not deteriorated.

2 BASIC LICENCE

2.1 **Overview**

This basic licence ("**Basic Licence**") is a software offering designed to enhance the alerts and operations of Microsoft Sentinel installations. The software aims to increase visibility into the security environment and facilitate quicker response to threats. The Basic Licence provides out-of-the-box, best practice enrichment, and calibration for Microsoft Sentinel. It includes the Seculyze Alert Classification tool, which aids in reducing alert fatigue by automatically triaging alerts and prioritizing the most important ones.

2.2 **Features**

The Basic Licence includes the following features:

(a) Calibrate:

(i) 1-click bulk update and change of alert rules: Update, enable or disable the alert rules you choose with one single click.

(ii) Alert Rule Calibration and Recommendations: Ongoing, automatic recommendations based on a value matrix for your environment on which alert rules to enable and disable. It is eligible for minimum 100 chosen alert rules by Seculyze.

(iii) Log Source Calibration and Recommendations: Ongoing, automatic recommendations based on a value matrix for your environment on which log sources to enable and disable. It is eligible for 20 chosen log sources by Seculyze.

(iv) Configuration Recommendations: Ongoing, automatic recommendations based on a value matrix for your environment on which basic configurations to enable and disable. It is eligible for 5 chosen recommendations by Seculyze.

(v) Cost transparency for Log Sources: Overview of what your log sources actually cost on a detailed table level. It is eligible for 5 chosen recommendations by Seculyze.

(vi) Microsoft Alert Rule Integration: Microsoft alert rules templates are integrated and shown directly on the interface.

(vii) Third-party Alert Rule Integration: Integrate 3rd party alert rules in the Seculyze portal. They are shown in the log source value analysis, but not does not have a value analysis.

(b) Tune:

(i) Threat Intelligence on Security Alerts: A number of open and closed source threat intelligence sources is used to enrich the alerts.

(ii) Continuous alert enrichment: A number of OSINT (Open-Source Threat Intelligence) sources, e.g. WHOIS, is used to enrich the alerts to increase analysis speed.

(iii) Risk-based priority: low, medium, high risk: Based on a unique algorithm, OSINT and Threat Intelligence are combined to provide a low, medium and high risk rating of security alerts.

(iv) View and Explore your Enriched Alerts: Get an easy overview of enriched alerts with observations and, based on that, easy to follow actions

2.3 Additional

The Basic licence includes the following additional features:

(a) Two-way Data Sync: Data is synchronized betweeen Microsoft Security portfolio and Seculyze

(b) Online Support: Support is provided through our chat app in the application.

(c) Easy installation: The Seculyze application is created through infrastructure-as-a-code, so once you have provided the required Azure secrets, installation is run as a code.

(d) In-App Onboarding & How-To Guides: Access to how-to-guides, knowledge articles, and private tours of the application with in-app onboarding.

(e) Customizable URL: Get your own custom URL of at least 4 letters, i.e. xxxx.seculyze.com

2.4 Add-Ons

The Basic licence includes the option to add the following features for an additional monthly fee:

(a) Auto-Generate Documentation: Easy and fast incident reporting, including NIS2 compliant, based on multiple inputs done with AI and masking of data.

3 PRO TUNE LICENSE

3.1 Overview

This **Pro Tune Licence** is a software offering that includes all the features of the Basic Licence, with additional enhancements. These include custom rule development and tuning to cater to specific organizational needs, integration with threat intelligence sources to provide additional context for alerts, and incident response support to help organizations respond to security incidents efficiently and effectively.

3.2 Features

The Pro Tune Licence includes the following features in addition to those listed in under the Basic Licence:

(a) Calibrate:

(i) Alert Rule Calibration and Recommendations: Ongoing, automatic recommendations based on a value matrix for your environment on which alert rules to enable and disable. All recommendations are shown.

(ii) Log Source Calibration and Recommendations: Ongoing, automatic recommendations based on a value matrix for your environment on which log sources to enable and disable. All recommendations are shown.

(iii) Configuration Recommendations: Ongoing, automatic recommendations based on a value matrix for your environment on which basic configurations to enable and disable. All recommendations are shown.

(iv) Customizable Value Settings: Overwrite the recommended value (i.e. cost and gain) from Seculyze for your custom value level.

(v) Log changes in alert rules and log sources: Alert rules and log sources changes are kept in a log with change type, comment, date and name.

(vi) Automated Rule Deployment: Enable that Microsoft alert rules are updated automatically when new KQL code is released.

(vii) Automatically follow all recommendations: Enable so all recommendations on alert rules, log sources and configurations are followed.

(b) Tune:

(i) Classification ML algorithm: Classifies alerts into false positives, true positives and undetermined.

(ii) Customizable Automation Settings: Change settings for your own automatic ML tuning rules, e.g. custom tags in Sentinel.

(iii) 1-Click Close False Positives: Close all false positives with a single click.

(iv) Auto-handle False Positives: Create automatic tuning rules based on analutical data for each alert rule.

(v) Identification of True Positives: The ML algorithm also indicates which alerts are true positives.

(vi) Threat Intelligence on Security Alerts: A number of open and closed source threat intelligence sources is used to enrich the alerts.

(vii) Continuous alert enrichment: A number of OSINT (Open-Source Threat Intelligence) sources, e.g. WHOIS, is used to enrich the alerts to increase analysis speed.

(viii) Easy risk-based triage: low, medium, high risk: Based on a unique algorithm, OSINT and Threat Intelligence are combined to provide a low, medium and high risk rating of security alerts.

(ix) View and Explore your Enriched Alerts: Get an easy overview of enriched alerts with observations and, based on that, easy to follow actions

(x) Custom Tags on your Sentinel incidents: Tag incidents with threat intelligence in your Sentinel instance.

3.3 **Additional**

The **Pro Tune Licence** includes the following additional features in addition to those listed in under the Basic Licence:

(a) Multiple User Privilege Levels: Add users with different levels of privileges, e.g. admin, user and read-only users.

3.4 Add-Ons

The **Pro Tune Licence** includes the option to add the following features for an additional monthly fee:

(a) Single Sign-On (SSO): Federate your AD sign-in with the Seculyze software.

(b) Your Own Managed Key to encrypt data: Encryption of customer data via a key managed by you that through an interface can be removed to increase control.

(c) Segregated Infrastructure: You will have the Seculyze application running on a segregated namespace in Azure.

4 PRO COST LICENSE

4.1 Overview

This **Pro Cost Licence** is a software offering that includes all the features of the Basic Licence, with additional enhancements. These include a tool for data collection rules and spike management to cater to specific organizational needs, cost of specific tables in log sources to provide cost transparency, monitoring of ingestion with alerting on threshold overshoot or lack of ingestion to ensure a cost efficient and working SIEM.

4.2 Features

The **Pro Cost Licence** includes the following features in addition to those listed in under the Basic Licence:

(c) Calibrate:

(i) Alert Rule Calibration and Recommendations: Ongoing, automatic recommendations based on a value matrix for your environment on which alert rules to enable and disable. All recommendations are shown.

(ii) Log Source Calibration and Recommendations: Ongoing, automatic recommendations based on a value matrix for your environment on which log sources to enable and disable. All recommendations are shown.

(iii) Configuration Recommendations: Ongoing, automatic recommendations based on a value matrix for your environment on which basic configurations to enable and disable. All recommendations are shown.

(iv) SKU Level Optimization: Monitoring of SKU levels with recommendation to change levels if consumption level can provide savings.

(v) Cost transparency for Log Sources: Overview of what your log sources actually cost on a detailed table level. All recommendations are shown.

(vi) Customizable Value Settings: Overwrite the recommended value (i.e. cost and gain) from Seculyze for your custom value level.

(vii) Log changes in alert rules and log sources: Alert rules and log sources changes are kept in a log with change type, comment, date and name.

(viii) Automated Rule Deployment: Enable that Microsoft alert rules are updated automatically when new KQL code is released.

(ix) Automatically follow all recommendations: Enable so all recommendations on alert rules, log sources and configurations are followed.

(d) Tune:

(i) Threat Intelligence on Security Alerts: A number of open and closed source threat intelligence sources is used to enrich the alerts.

(ii) Continuous alert enrichment: A number of OSINT (Open-Source Threat Intelligence) sources, e.g. WHOIS, is used to enrich the alerts to increase analysis speed.

(iii) Easy risk-based triage: low, medium, high risk: Based on a unique algorithm, OSINT and Threat Intelligence are combined to provide a low, medium and high risk rating of security alerts.

(iv) View and Explore your Enriched Alerts: Get an easy overview of enriched alerts with observations and, based on that, easy to follow actions

(e) Cost:

(i) Easy-to-use Data Collection Rule tool: Provides an easy overview of Data Collection Rules (DCR), both potential savings and current implemented.

(ii) Vertical log ingestion removal: Remove ingestion cost in table colums and fields, that do not provide value.

(iii) Horizontal ingestion removal: Remove cost in log entries that either does not provide value or are duplicate.

(iv) Summary rules & low cost storage move: Aggregate large sets of data to provide cost savings on verbose logs.

(v) Remove duplicate events: Clean up log sources, so duplicate events in the same log source are not present multiple times.

(vi) Remove log source overhead: Remove overhead from select log sources, e.g. comments in logs.

(vii) Monitor log source ingestion: Monitor the ingestion level and that logs are actually ingested.

(viii) Alert management on log ingestion: Get an alert if logs are over-ingesting or are not ingested at all.

(ix) Spike management of individual costs: Monitor ingestion and set capacity and ingestion thresholds to ensure spending does not run out of hand.

4.3 **Additional**

The **Pro Cost Licence** includes the following additional features in addition to those listed in under the Basic Licence:

(a) Multiple User Privilege Levels: Add users with different levels of privileges, e.g. admin, user and read-only users.

4.4 **Add-Ons**

The **Pro Cost Licence** includes the option to add the following features for an additional monthly fee:

(a) Single Sign-On (SSO): Federate your AD sign-in with the Seculyze software.

(b) Your Own Managed Key to encrypt data: Encryption of customer data via a key managed by you that through an interface can be removed to increase control.

(c) Segregated Infrastructure: You will have the Seculyze application running on a segregated namespace in Azure.

5 ENTERPRISE LICENCE

5.1 Overview

This enterprise licence ("**Enterprise Licence**") includes all the features of the Pro Cost and Pro Tune Licence, with additional capabilities and possible add-ons. The Enterprise Licence is designed to streamline security operations, allowing teams to focus more on critical tasks such as threat investigation and response by providing efficiency in the MDR and IR functions adding advanced tuning functionality, advanced calibration, advanced cost optimization, advanced ingestion monitoring and improved false-positive hunting.

5.2 Features

The **Enterprise Licence** includes all the collective features from the Pro Cost License and Pro Tune Licence.

5.3 Add-Ons

The **Enterprise Licence** includes the option to add the following features for an additional monthly fee:

(a) Segregated Infrastructure: You will have the Seculyze application running on a segregated namespace in Azure.

6 DISCLAIMER

Publisher does not provide managed services. Publisher provides software that allows the Customer to use and benefit from the features if correctly managed by Customer. Customer is required to have existing Microsoft Sentinel installations.
